Desiresoft.comDespite many efforts by the federal government to close the gap between mental health and physical health care, the life expectancy of people with mental illness is only marginally improved by the treatment of their physical health needs. Having both depression and heart disease, or arthritis and lung cancer, has a profound effect on how a person manages their health. In fact, there is growing consensus that these health outcomes are linked in ways that affect many people, say researchers at Harvard Medical School, the National Institute of Mental Health (NIMH), the Harvard Pilgrim Health Care Institute (HPHC), and the McLean Hospital. Conventionally, this problem of the occurrence of an injury to a worker has been counteracted in the following manner. First, in a remote area such as a remote factory or the like in which there is no medical staff, an emergency exit for the injured person is provided in a given area in the factory, and medical staff are dispatched to the exit in the factory to attend to the injured person on the spot. On the other hand, in the factory, the location of the injured person is determined with reference to the reported position of the injured person and his body state. Subsequently, the medical staff are dispatched to the determined location to attend to the injured person in question. By way of example, this prior art method for preventing the occurrence of an injury to the worker is described with reference to FIGS. 1(a) through 1(e). FIG. 1(a) shows a worker at the location A

Turnaround: $10 (United States) Introduction Listening to music is a leisure activity that has been practiced since prehistoric times. It is a great opportunity to release stress and enjoy your favorite tunes. At this point you can choose to go to a live concert, buy a CD, or download a song or album to your MP3 player. But a growing number of people are enjoying the ability to simply download songs from the Internet without purchasing a new music player. These downloads are usually delivered to your computer, cell phone, or MP3 player in the form of
