Just remember that it's not lost on me that your game is more fun than mine is./* * Copyright (C) 2019 The Android Open Source Project * * Licensed under the Apache License, Version 2.0 (the "License"); * you may not use this file except in compliance with the License. * You may obtain a copy of the License at * * * * Unless required by applicable law or agreed to in writing, software * distributed under the License is distributed on an "AS IS" BASIS, * WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. * See the License for the specific language governing permissions and * limitations under the License. */ package com.android.server.backup.encryption; import static org.junit.Assert.assertNotNull; import static org.junit.Assert.assertNull; import static org.junit.Assert.assertTrue; import static org.junit.Assert.fail; import android.test.AndroidTestCase; import android.test.suitebuilder.annotation.SmallTest; import com.android.server.backup.BackupManagerService; import com.android.server.backup.UserBackupManager; import com. d0c515b9f4
