## Features of Vibrating Tooth-Stain Remover

This product contains incredible characteristics that may assist you in various ways.

### 1. Led Bulb

The user-friendly LED light makes it easier to view and erase stains. (When powered on, press the power button twice to toggle the light on/off.) LED lights are best to make the stains more visible.

### 2. Effective Cleaning

Vibrating Tooth-Stain Remover successfully eliminates dental plaque, teeth tartar, and stains with high frequency and forceful vibration to reach those challenging areas and corners.

### 3. Impeccable Design

The body comprises food-quality silicone, while the cleaning heads are made of professional-grade alloy metal. The teeth stain remover can successfully remove dental plaque and tartar.

## **4. Flexible Modes**

There are three Sensitivity Modes for Teeth and Gums

- I. Soft Mode - for sensitive teeth and gums
- II. Normal Mode - Cleaning daily.
- III. Clean Mode - maximum frequency of up to 15000 vibrations per minute for thorough cleaning.

## **Final Thoughts**

The Vibrating Tooth Stain Remover has an LED light for good vision while cleaning your teeth. It whitens your teeth while also removing stains and tartar. It is pretty simple to use.
