

# Quick Defrosting Tray – Less Food Prep Time, More Relaxation Time

There's nothing more therapeutic than cooking. But this duty can become your worst nightmare if you forget to defrost the meat beforehand. Instead of complaining about the situation, get your hands on the Quick Defrosting Tray and cut down on food prep time. So, when you're in a rush, pull out this tray and let your chicken defrost six times faster! It's a must-have for all cooks who wish to remain stress-free and efficient in the kitchen.

## A Sturdy Utensil of Convenience

The [Quick Defrosting Tray](#) is built to add ease to your daily cooking. It is made of aluminum and thermal alloy possessing heat-conduction properties and covered with a protective layer. Its high-quality composition makes your steak or mutton defrost in no time. For further convenience, cleaning up this nifty gadget is effortless. You can easily hand-wash this tray or place it in the dishwasher with the rest of the dishes.

## Zero Batteries and Toxins

Now you can save up your bucks by replacing bulky microwaves with this handy tray. Defrosting is not supposed to make you break the bank. Besides, the harmful radiation emitted by microwaves can cause adverse reactions in the human body, and science backs this up. The Quick Defrosting Tray is hassle-free and works magic without plug-ins or batteries. Simply place the meat on top of it, and it'll be good to go in a flash.

## Say No to Unhealthy Food

You've chopped and diced all the ingredients but taking out the meat from the freezer escaped your mind? No need to place last-minute orders anymore. The Quick Defrosting Tray provides a healthy solution. It will prep your chicken for

cooking in about twenty minutes. So, use this tray to prep your food in the most sanitary way and ensure your peace of mind.
