## Red beach

**Red Beach** in Santorini is a truly geological marvel, known for its unique landscape and vibrant red and black volcanic rocks. Here's what you need to know about this stunning beach:

**Location and Geological Formation:**

Red Beach is located close to the Akrotiri town on the island of Santorini, Greece.

The beach's striking red color comes from volcanic eruptions and earthquakes that eroded the cliffs behind it, exposing rocks rich in iron and sulfuric elements.

**Getting There:**

You have two ways to reach Red Beach:

Take a small ferry from Athinios port, which will also take you to the nearby White Beach.

Use the local Santorini bus (or drive) to Akrotiri and then walk the rough path to Red Beach.

**Safety Precautions:**

While Red Beach is open, it's essential to stay within the barricaded areas marked by authorities due to the risk of falling rocks from the cliffs above.

The beach is safe as long as you follow these guidelines.

**Photos and Views:**

The blue waters contrast beautifully against the red lava rock cliffs, creating a surreal and otherworldly landscape.

Enjoy the five-minute hike down to the shore and take in the breathtaking views.

Whether you're a nature enthusiast or simply seeking a unique beach experience, Red Beach in Santorini is a must-visit! 🌊🏖️📸
